International Code of Signals.

A Washington dispatch of the 11th, to the New York World, says:

The Treasury Department is considering the propriety of urging upon Congress at its next session the importance of some general enactment in regard to the adoption by the merchants' marine of the international code of signals now used by the merchant vessels of most foreign nations. This code is being published by the Navy Department for use in the navy, and when completed will be on sale at its cost of publication, which will be less than \$3 per volume. The system is very complete, and by the use of books communication can be established as well between vessels of nations speaking different languages as between those of the same nation. At present communication between American vessels is very different, owing to several systems being in use, and it is almost impracticable for an American merchant vessel to communicate with a vessel of a nation speaking a foreign language, or with vessels of the United States Navy, by which the new code has been adopted.

For Inflammatory and Chronic Rheumatism and Gout. Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful.
